

âmbar strikes a balance between artisanal beauty and the high performance that chefs demand, a perfect canvas for today's sustainable food stories. The material ECO GRES® is both an aesthetic statement and a sustainability highlight.

"âmbar is a tribute to the circular shapes and soft contours of nature. In my design process, I developed a language of forms in which sensual, circular outer contours and edges, concentric and irregular, are arranged in conjunction with each other."

Crafting beautiful dining experiences

PROFESSIONAL

Our ECO GRES® collection continues to expand, with the addition of two new recycled stoneware collections: AMBAR and LAGOA ECO GRES.

Joining our initial recycled collection PLANO, launched in 2020, AMBAR and LAGOA ECO GRES are made of Eco Gres®, a proprietary clay, made of recycled materials and completely sustainable.

All COSTA NOVA collections are produced with respect for nature - reusable and recyclable. AMBAR, LAGOA ECO GRES & PLANO go even further ahead, telling a unique story of how tableware can be made of recycled materials, completely eco-friendly while remaining beautiful and functional at the same time.
