Âmbar strikes a balance between artisanal beauty and the high performance that chefs demand, a perfect canvas for today's

sustainable food stories. The material ecogres is both an aesthetic statement and a sustainability highlight.

«Âmbar is a tribute to the circular shapes and soft contours of nature. My first inspiration was stone and ring shapes as found in nature. Amber always has a transparent outer body and inclusions and precious round objects inside. In my design process, I developed a language of forms in which sensual, circular outer contours and edges, concentric and irregular, are arranged in conjunction with each other. This results in exciting relief surfaces that go beyond the familiar.»
