

coastland  
carsten gollnick

“Coastland collection was inspired by the aesthetics of landscapes between sea and land. The material aesthetic responds to the material beauty of the coasts, beaches, and dune landscapes. The magical area in between, full of soft natural colors, nuances, and strong contrasts. Between the vastness of the sky above the sea and the intense beauty of the hinterland. An imaginary walk from the sea to the land...”

The products in the collection are all very precisely coordinated, resulting in very useful and creative combinations for the professional. Tall plates become lids and vice versa. Wooden cutting boards become wooden plates and at the same time lids for bowls and dishes. Flat plates in combination with matching wooden plates become new presentation objects for dishes of the casual dining world. From the multitude of combinations, new themes and food creations can be created, such as bento concepts, aperitif stagings, relaxed brunch stories, and new sharing concepts, to name just a few. Coastland tells sustainable and material aesthetic stories on the table in a variety of ways.”
