

NEW 2024 COLLECTION • PORCELAIN

## resonance

Resonance, designed by Carsten Gollnick, goes beyond the boundaries of conventional design and tabletop décor, inviting chefs and restaurateurs to explore a variety of stoneware and porcelain combinations. This innovative blend of shapes, finishings and materials, promises to elevate every plating and food presentation, ensuring each one becomes a spectacular culinary experience, while also elevating the guests experience to new levels of sophistication.

*«Both materials have their own aesthetic and functional qualities. Both materials are assigned very different characteristics and attributes. In the design, I therefore tried to reconcile or harmonize the two material qualities of porcelain and ceramics. My wish was to support each of these individual and “personal” qualities of ceramics and porcelain and not to level them or make them the same.»*
