Silvina is a collection that tells a story, beginning with its name. It honors the grandmother of COSTA NOVA's founder and celebrates Portuguese heritage, reflecting the sense of tradition associated with the name Silvina. Drawing inspiration from 16th-century Palissy ceramics, where texture is a defining feature, the collection delivers a sophisticated sensory experience to enhance the guest experience. Its white reactive glaze and craquelé terracotta finish provide a refined contrast, making it suitable for both modern and elegant settings.
